

"Got A Big Audience? Make It EVENTFUL!"

If you're planning a large presentation or conference then SimpleEvent is your answer! This easy-to-use, automated conference system provides efficient interaction between a presenter, panelist and a large audience. As the conference organizer you can add multiple speakers, multiple panelists with presentation capabilities up to 1000 listen-only participants. This is by far our most scalable and flexible conferencing service, offering enhanced features such as: international access, private sub-conferences and call detail reporting. SimpleEvent has the capability to ensure the success of your high profile calls by providing a professional and structured conferencing environment on a large scale

SimpleEvent also has the capacity to let the conference organizer determine the cost for each caller. By providing both toll and toll-free numbers the host can spread the cost of the conference across participants.
