

“Low Cost, High Quality, Ultimate Hospitality!”

You demand the best for your callers and so do we. With SimpleTollFree the host picks up all the telephone charges and the callers pay absolutely nothing. Using a toll-free (800) number, you can instantly conduct automated conferences with up to 250 callers at one time. SimpleTollFree is great for client based conference calls and always comes with the most competitive pricing on the market. Automated, toll-free, reservationless conferencing simplifies your communications and gives you the flexibility to create great conference experiences with your most valuable callers. A simple, one-time activation is all it takes to setup your conference line for availability 24 hours-a-day, 7 days-a-week, whenever and wherever you need to conduct your meetings.

SimpleTollFree offers the same great features as today's most advanced conferencing systems including listen-only mode, conference security and even FREE conference recording. Not only is the recording service free, it's accessible by phone or on the web, with no additional charges for downloading. You can distribute, archive or even send recordings to your listeners via podcast... for FREE. SimpleTollFree runs over Free Conferencing Corporation's all-digital network, providing enhanced clarity and reliability.
